WILBERT ANDREW YONATHAN

wilbertyonathan@gmail.com | +60 17-633 4298 | linkedin.com/in/wilbert-andrew-yonathan | github.com/WAYTECHG
wilbert-andrew-yonathan.vercel.app | huggingface.co/Wizzas | Sepang, Selangor
Available for an internship from 29 March 2027 for up to five months

EDUCATION

Xiamen University Malaysia Sep 2023 – Sep 2027 (Expected)
Bachelor of Engineering in Artificial Intelligence | CGPA: 3.77/4.00

SKILLS

Programming Languages: Python, C, C++, JavaScript, SQL
Machine Learning (ML) & Computer Vision: PyTorch, TensorFlow/Keras, scikit-learn, OpenCV, YOLOv8, DINOv2
Generative AI & NLP: LLMs (Qwen), RAG, LangChain, LangGraph, LoRA/QLoRA, Hugging Face Transformers
Data & Databases: NumPy, pandas, SQLite, Supabase (PostgreSQL, Auth, RLS)
Web Development & APIs: React, FastAPI, Gradio, Streamlit, REST APIs, HTML/CSS
Cloud & Deployment: AWS (Lambda, Lightsail, CloudWatch, SNS, IAM, Budgets), Docker, Docker Compose, GitHub Actions (CI/CD), Linux (Ubuntu), Hugging Face Spaces (ZeroGPU), Caddy, Render, Vercel
Tools & Automation: Git, pytest, n8n, Webhooks, Resend
Spoken Languages: English (Professional Working), Mandarin (Conversational), Malay (Conversational), Indonesian (Native), Hokkien (Native)

PROJECT EXPERIENCE

PaddyLiteX: Paddy Disease Detection (Final-Year Thesis) | GitHub | Live demo Apr 2026 – Present
- Developed a DenseLiteX-SPPF-C2PSA YOLOv8n detector for nine paddy classes, obtaining 81.67% mAP@0.5 on 803 test images, 0.88 percentage points above the original YOLOv8n baseline with 4.24% fewer parameters.
- Reduced parameters by 68.01% and GFLOPs by 72.59% compared to the initial YOLOv8n-DenseNet121 method; conducted ablation studies on different variants and deployed demos on Render and Hugging Face Spaces.

DefectRAG: Visual Anomaly Inspection and RAG | GitHub | Live demo Aug 2026 – Nov 2026
- Built an industrial anomaly detector in Python and PyTorch that flags unusual products across 12 categories without labelled defect images; fine-tuned DINOv2 to lift VisA AUROC from 0.950 to 0.971 and reach 0.992 on MVTec AD.
- Built a retrieval-augmented generation (RAG) assistant with LangChain and LangGraph and fine-tuned Qwen2.5-3B using QLoRA on an 8 GB GPU, raising correct-source answers from 42% to 89% on 80 held-out answerable questions.
- Deployed on Hugging Face using React.js, FastAPI, Supabase MFA, 500+ tests and GitHub Actions CI, and on AWS Lightsail with HTTPS, Lambda, Budgets and CloudWatch alarms; automated case emails with n8n in Docker.

MarineLite: Marine Organism Detection | GitHub | Live demo Jun 2026 – Jul 2026
- Integrated GhostConv and SimSPPF into the DU-MobileYOLO object detector, improving mAP@0.5 from 74.23% to 75.36% on URPC2020 dataset while reducing parameters from 4.70M to 4.37M.
- Compared five ablation variants and deployed public demos on Hugging Face and Render.

dPickleball: Reinforcement Learning Agent | GitHub | Competition video May 2026 – Jul 2026
- Trained an independent reinforcement learning agent (PPO) in Unity ML-Agents, testing reward and penalty settings in the team's curriculum and league self-play pipeline; 90 minutes per run, 4 checkpoints delivered.
- Entered a candidate in the team's round-robin; it reached the top 4 and the team placed 2nd of 13 teams.

WORK EXPERIENCE

Student Registration & Operations Assistant, Xiamen University Malaysia Apr 2025
Assisted registration logistics and directed students within a team serving 800+ foundation students.

LEADERSHIP AND ACTIVITIES

Head of Photography & Videography, Love in Action Feb 2026 – Mar 2026
Scheduled 8 departments' filming; managed and co-edited 200+ clips for a 150+ participant final video.

Head of General Affairs, XMUM AI Club Apr 2025 – Oct 2025
Managed RM1,000 WPS sponsorship on 5+ event items; booked venues for a national AI tournament.

Assistant, General Affairs, AIESEC XMUM Sep 2023 – Sep 2025
Served as person-in-charge for 40–50 new members each semester; booked general-meeting venues for 13 weeks.

AWARDS

- Dean's List, three consecutive semesters
- XMUM Merit Scholarship, four-year undergraduate program, 2023–2027
