WILBERT ANDREW YONATHAN

wilbertyonathan@gmail.com | +60 17-633 4298 | LinkedIn | GitHub | Portfolio | Sepang, Selangor

CAREER OBJECTIVE

Final-year Artificial Intelligence engineering student seeking an AI Engineer or Computer Vision internship, with project experience in model development, evaluation, RAG applications and deployment.

EDUCATION

Xiamen University Malaysia Sep 2023 – Sep 2027 (Expected)
Bachelor of Engineering in Artificial Intelligence | CGPA: 3.77/4.00

TECHNICAL SKILLS

Programming Languages: Python, C, C++, SQL
Machine Learning & Computer Vision: PyTorch, TensorFlow/Keras, scikit-learn, OpenCV, LightGBM, YOLOv8, Object Detection, Image Classification, Visual Anomaly Detection
Generative AI & NLP: LLMs, RAG, LangChain, LangGraph, Hugging Face Transformers
Data & Databases: NumPy, pandas, SQLite, Supabase (PostgreSQL)
Web & APIs: FastAPI, Flask, React (React.js), Gradio, Streamlit, REST APIs
Deployment & Automation: Git, Docker, Render, Vercel, n8n, Resend, Formspree
Spoken Languages: English, Mandarin, Indonesian, Malay, Hokkien

PROJECT EXPERIENCE

PaddyLiteX: Paddy Disease Detection Apr 2026 – Present
- Developed a DenseLiteX-SPPF-C2PSA YOLOv8n detector for nine paddy classes, achieving 81.67% mAP@0.5 (+0.88 percentage points) with 4.24% fewer parameters than YOLOv8n.
- Compared with the initial YOLOv8n-DenseNet121 proposal, reduced parameters by 68.01% and GFLOPs by 72.59%; conducted ablation studies and deployed a three-model comparison demo.

DefectRAG: Visual Anomaly Inspection and RAG Aug 2026 – Oct 2026
- Built and evaluated a frozen DINOv2 anomaly-inspection pipeline across 12 VisA products, achieving 95.13% mean image AUROC in retrospective evaluation.
- Integrated BGE embeddings, Qwen, LangChain and LangGraph for cited RAG; built a React.js/FastAPI dashboard, packaged locally with Docker and deployed a Hugging Face ZeroGPU demo.
- Stored cases and reviews in Supabase; used n8n to validate case events, check authorization, notify supervisors and record delivery receipts.

MarineLite: Marine Organism Detection Jun 2026 – Jul 2026
- Integrated GhostConv and SimSPPF into DU-MobileYOLO; increased mAP@0.5 from 74.23% to 75.36% on URPC2020 while reducing parameters from 4.70M to 4.37M.
- Conducted ablation studies and deployed a web demo with detection overlays and model comparisons.

dPickleball: Reinforcement Learning Agent May 2026 – Jul 2026
- Trained Proximal Policy Optimization (PPO) agents using Unity ML-Agents, curriculum learning, reward shaping and league self-play.
- Contributed policies and round-robin evaluation to a six-member team that placed 2nd among 13 teams in the final class competition.

WORK EXPERIENCE

Student Registration & Operations Assistant, Xiamen University Malaysia Apr 2025
- Supported registration logistics and directed students as part of a team serving 800+ students.
- Organized university assets and materials for event operations and proper storage.

LEADERSHIP AND ACTIVITIES

Head of Photography & Videography, Love in Action Feb 2026 – Mar 2026
Coordinated media coverage and edited outreach materials.
Head of General Affairs, XMUM AI Club Apr 2025 – Oct 2025
Coordinated logistics and external partners for a national-level AI event.

AWARDS

- Dean's List: Three consecutive semesters.
- XMUM Merit Scholarship: Four-year undergraduate programme (2023–2027).
