wilbert-andrew-yonathan.vercel.app | huggingface.co/Wizzas | Sepang, Selangor
Available for an internship from 29 March 2027 for up to five months

EDUCATION

Xiamen University Malaysia Sep 2023 – Sep 2027 (Expected)
Bachelor of Engineering in Artificial Intelligence | CGPA: 3.77/4.00

SKILLS

Programming Languages: Python, C, C++, JavaScript, SQL
Machine Learning: PyTorch, TensorFlow/Keras, scikit-learn, LightGBM, Ultralytics
Computer Vision: OpenCV, CNNs, YOLOv8, DINOv2, Object Detection, Image Classification, Visual Anomaly Detection
Generative AI & NLP: LLMs, RAG, LangChain, LangGraph, Hugging Face Transformers, Qwen, BGE Embeddings
Data & Databases: NumPy, pandas, SQLite, Supabase (PostgreSQL)
Web & APIs: FastAPI, Flask, React (React.js), Gradio, Streamlit, REST APIs
Cloud & Deployment: AWS (Lightsail, EC2, Lambda, CloudWatch, Budgets), Docker, Docker Compose, Linux (Ubuntu), Git, Hugging Face Spaces, Render, Vercel
Automation & Integration: n8n, Webhooks, Resend, Formspree
Spoken Languages: English, Mandarin, Indonesian, Malay, Hokkien

PROJECT EXPERIENCE

PaddyLiteX: Paddy Disease Detection (Final-Year Thesis) Apr 2026 – Present
- Developed a DenseLiteX-SPPF-C2PSA YOLOv8n detector for nine paddy classes, achieving 81.67% mAP@0.5 on 803 test images (+0.88 percentage points and 4.24% fewer parameters than the YOLOv8n baseline).
- Reduced parameters by 68.01% and GFLOPs by 72.59% relative to the initial YOLOv8n-DenseNet121 proposal; conducted ablation studies and deployed a three-model comparison demo.

DefectRAG: Visual Anomaly Inspection and RAG Aug 2026 – Oct 2026
- Built and evaluated a visual anomaly-inspection pipeline with a frozen DINOv2 encoder across 12 VisA product categories, achieving 95.13% mean image AUROC in a retrospective development evaluation.
- Integrated BGE embeddings, Qwen, LangChain and LangGraph to generate cited RAG explanations; developed a React.js/FastAPI dashboard, packaged locally with Docker, and deployed a Hugging Face ZeroGPU demo.
- Built a corrective-action workflow with Supabase (Auth, row-level security, TOTP MFA) and n8n: instant supervisor emails, reminders, duplicate-send protection; deployed on AWS Lightsail with Docker Compose and Caddy (HTTPS).

MarineLite: Marine Organism Detection Jun 2026 – Jul 2026
- Integrated GhostConv and SimSPPF into DU-MobileYOLO, improving mAP@0.5 from 74.23% to 75.36% on URPC2020 while reducing parameters from 4.70M to 4.37M.
- Conducted ablation studies and deployed a web demo with detection overlays and model comparisons.

dPickleball: Reinforcement Learning Agent May 2026 – Jul 2026
- Trained Proximal Policy Optimization (PPO) agents in Unity ML-Agents using curriculum learning, reward shaping and league self-play.
- Contributed candidate policies and round-robin evaluation to a six-member team that placed 2nd among 13 teams in the final class competition.

WORK EXPERIENCE

Student Registration & Operations Assistant, Xiamen University Malaysia Apr 2025
- Supported registration logistics and directed students within a team serving 800+ students.
- Organised university assets and materials for event operations and storage.

LEADERSHIP AND ACTIVITIES

Head of Photography & Videography, Love in Action Feb 2026 – Mar 2026
Coordinated media coverage and edited outreach materials.

Head of General Affairs, XMUM AI Club Apr 2025 – Oct 2025
Coordinated logistics and external partners for a national-level AI event.

Assistant, General Affairs, AIESEC XMUM Sep 2023 – Sep 2025
Coordinated room bookings and venue setups for weekly meetings.

AWARDS

- Dean's List (three consecutive semesters)
- XMUM Merit Scholarship (four-year undergraduate programme, 2023–2027)
